This monumental project provides new insights into every facet of the strength, depth and variety of Ireland s artistic and architectural heritage. TWENTIETH CENTURY An examination of the works of art created in twentieth-century Ireland and the critical contexts from which they came. Focusing on painting, photography and new media, rather than on sculpture, this volume considers the work of conceptual and digital artists as well as those who have used more traditional approaches. Definitive biographies of many of the key artist of the era are included, and the volume also addresses the main political and social issues that lay behind twentieth century Irish art.
