PRO VS 2005 REPORTING USING SQL SERVER AND CRYSTAL REPORTS

Paperback. Book Condition: New. Not Signed; Creating clear and comprehensive reporting functionality is one of the most important, and most misunderstood, tasks that developers do in professional life. The reports they generate are used by both their clients and their own managers to assess the performance of their applications and to gauge how well the application meets business objectives. This book shows how to use Visual Studio 2005 and complementary technologies, such as Crystal Reports, to quickly and simply create...

Reviews

This book will never be straightforward to start on looking at but extremely exciting to read. I actually have read through and that i am sure that i am going to gonna go through once more again in the future. I am happy to explain how this is the very best book i have read through in my individual lifestyle and may be he best publication for at any time.
