Date :2011-07-01 version 1. Huyun Lin compiled the mechanical manufacturing processes and implementation to focus on engineering applications. based on a combination of theory and practice of the principle of focusing on the practical work of students ability. The book is divided into four modules: Module 1 to Module 3 from the knowledge points and ability points in two areas. a detailed account of the basis of the machining process and fixture. machining quality control technology. mechanical assembly technology content; Module 4 based on actual production requirements given in the preparation and processing operation processing. fixture design. assembly process planning and other training. Machinery manufacturing process and implementation of teaching for the higher vocational institutions. but also as a professional training materials. but also for engineering and technical officers. Contents: Introduction Module 1 machining technology and infrastructure projects in a machining fixture process planning knowledge of the basic concepts of point 1.1 1.1.1 1.1.2 production processes and process machining process the workpiece clamping method and composition and size 1.1.3 accuracy to obtain the type of production method 1.1.4 1.1.5 machining process planning knowledge. process planning point of 1.2 the preparation stage of the preparation of structural components 1.2.1 1.2.2 Process of preparing the raw data analysis and product review process selection knowledge rough 1.2.3 Point 1.3 of the proposed machining process line 1.3.1 preparation work order processing route selection locating datum 1.3.2 1.3.3 1.3.4 surface processing methods to determine the processing stage of the division and arrangement of the order processing process 1.3.5 composition and heat treatment processes and supporting processes of arrangement designed to process knowledge point 1.4 1.4.2 1.4.1 Determination...
